| Facility Description | East Tennessee Medical Research (ETMR), in partnership with East Tennessee State University (ETSU), is located in the heart of Johnson City, TN. The close proximity to the campus of ETSU allows access to university resources and creates seamless collaboration for the conduction of clinical research. ETMR's addition to the PMG Integrated Site Network (ISN) brings the capability to conduct more specialized clinical trials including HIV/AIDS, Hepatitis, and other Infectious Disease indications. |
| Investigator Expertise | ETMR Physician Investigators come from a diverse multi-specialty network of physicians with both clinical and academic research expertise. ETMR provides a solid foundation for leading industry-based clinical trials which best serves the needs of clinical trial partners and patient volunteers. For a complete list of investigators and their specialties, please view our Investigator Directory on our homepage at www.pmg-research.com . |
| Patient Recruitment | <ul style="list-style-type: none"> • Access to our proprietary and searchable database of potential clinical research participants. • Access to practice patients among our team of Investigators – patient identification is facilitated by Electronic Medical Records (EMR). • Use of extensive media advertising expertise. • Participation in community wide health awareness initiatives. |
| Facility Compliance | <ul style="list-style-type: none"> • Secured and climate controlled investigational drug storage. • CLIA waived laboratories. • IATA certifications. • DEA licenses for scheduled drugs. • OSHA compliant. • Scheduled equipment inspections and calibration. |
