Facility Description	Metrolina Medical Research (MMR) is centrally located in Charlotte, NC, and attracts patient volunteers from a large metropolitan area. MMR's facility is adjacent to the Family Practice of Dr. George Raad, which allows for ongoing collaboration and identification of participants. Our diverse therapeutic capability, coupled with extended outreach, facilitates successful clinical research outcomes.	
Investigator Expertise	Metrolina Medical Research is led by a team of investigators who have an established track record of performance through combined clinical trial experience of over 80 years. For a complete list of investigators and their specialties, please view our Investigator Directory on our homepage at www.pmg-research.com .	
Patient Recruitment	<ul style="list-style-type: none"> • Access to our proprietary and searchable database of potential clinical research participants. • Access to private practice patients among our team of Investigators – patient identification is facilitated by Electronic Medical Records (EMR). • Use of extensive media advertising expertise. • Participation in community wide health awareness initiatives. 	
Facility Compliance	<ul style="list-style-type: none"> • Secured and climate controlled investigational drug storage. • CLIA waived laboratories. • IATA certifications. • DEA licenses for scheduled drugs. • OSHA compliant. • Scheduled equipment inspections and calibration.
