Facility Description	Piedmont Medical Research (PMR), founded 30 years ago, occupies a 10,000 square foot, state-of-the-art facility adjacent to Forsyth Medical Center. Recognized as a leading site in the industry, PMR partners with clinical research investigators in 10 therapeutic areas to optimize study resources for both sponsors and participants. Through years of dedication, PMR has an established outreach process for attracting patient volunteers which includes a searchable database of over 64,000 potential trial participants.
Investigator Expertise	Piedmont Medical Research is led by a team of investigators who have an established track record of performance through combined clinical trial experience of over 275 years. For a complete list of investigators and their specialties, please view our Investigator Directory on our homepage at www.pmg-research.com .
Patient Recruitment	<ul style="list-style-type: none"> • Access to our proprietary and searchable database of potential clinical research participants. • Access to private practice patients among our team of Investigators – patient identification is facilitated by Electronic Medical Records (EMR). • Use of extensive media advertising expertise. • Participation in community wide health awareness initiatives.
